NOTES AND COMMENTS.

The Kowloon Water Supply.

Kowloonites will take a very keen interest in the subject of the Kowloon Waterworks Gravitation Scheme, which was brought up at yesterday's meeting of the Legislative Council. The want of proper water works in Kowloon has been felt very acutely of late, and the inhabitants are anxious to see the work of providing them put in hand at once. This being the case it is very disappointing to find that the proposed scheme is likely to be delayed in execution through the Secretary of State for the Colonies asking for a further report from Mr. CHATHAM. This will, we presume, take some time to prepare, will occupy at least a month in reaching London, will then have to be carefully considered and, by the time that the scheme is sanctioned, much very valuable time, which might have been profitably employed, will have been wasted.

To the layman Mr. CHATHAM'S letter appears to be entirely in favour of the scheme and his concluding paragraph points out the urgent need of the work being undertaken at once; and the present dry season being availed of. His Excellency the Governor, in his despatch, also points out how absolutely necessary the work is and asks that Mr. CHAMBERLAIN'S approval may be telegraphed out. Thus it appears that, so far as the Hongkong Government is concerned, everything possible has been done to urge on the work, and the delay is occasioned solely by the Colonial Office. This, to say the least of it, is a great pity, and we have heard it remarked that it would have been better had the Colonial Office shown as great promptitude in the Kowloon Waterworks Scheme as it did in approving the increases to the Official salaries, which were yesterday brought before the Council.

Salaries.

Nobody in the Colony will, we think, begrudge the increase which has been granted to the Government Officials of Hongkong from the first of next month. The necessity for such increase, apart from the great rise in the price of all necessities, was very clearly pointed out by His Excellency the Governor. To put it plainly, had the increase not been granted, it would have meant that we should have had to be content with cadets of an inferior ability to those of the Straits. The best men would have elected to go there in preference to coming to Hongkong on a lower scale of pay. As matters now stand we presume that Hongkong will attract the pick of the cadets, for we have a better climate than the Straits and, pay being the same, a man will naturally prefer to serve in the least trying climate. Thus matters are as they should be, and we may expect our officials to compare favourably with those of other Eastern Colonies.

A SALTED CHINAMAN.—There was rather an unusual cargo landed at the Singapore wharf recently by the German mail steamer Sachsen, in the shape of a salted Chinaman, preserved in an ordinary sized barrel. It would appear that on the voyage out the Engineer's staff lost the services of a fireman, and his friends not wishing his body cast into the mighty deep, a novel coffin was secured in the shape of an empty wine barrel, into which was cast the mortal remains of John Chinaman, who was buried ashore by the ship's crew.

THE LATE MR. PETHICK.—From the China Gazette, of the 23rd instant we take the following:—News was received here yesterday from Peking announcing the death of Mr. W. S. Pethick, who for so many years filled the one-rouse and important office of Secretary to the late Li Hung-chang. Mr. Pethick was an American and had an unique knowledge of Chinese besides knowing the people of this country as few men have ever known them. At one time his influence, with the dead Chungtong was very great, but latterly he became disgusted with the treachery and meanness of Li and left his service. For years Mr. Pethick had great opportunities during his career for amassing wealth, but he died a poor man. But he had acquired unparalleled knowledge of the inner working of Chinese statecraft and was engaged upon a life of Li Hung-chang when death called him to join the ungrateful master he had so long and faithfully served.

THE STAR FERRY SQUEEZE.

When the decision of the above Co. to raise the first class fares between Hongkong and Kowloon from 10 cents to 15 cents was announced, a burst of indignation was heard on all sides and, on going carefully into the matter, the necessity for such an advance becomes less apparent. On three grounds the rise would be justifiable, firstly, a substantial increase in the price of coal; secondly, a succession of serious accidents necessitating a large outlay; and, thirdly, the number of passengers carried not being sufficient to make adequate return on the capital invested.

Enquiry brings to light the facts that, there has not been an appreciable rise in coal, but rather the reverse, as Cardiff has declined materially in price; there has been no unusual expense incurred through accidents; and, lastly, the balance sheet of the Company discloses an increase of passengers enabling them to pay 12 per cent dividend to the shareholders and 'build up, at the same time, out of bona fide revenue, a solid reserve fund.

There may be another reason for the iniquitous advance in rates and that is, by taking a bare-faced advantage of their monopoly and in return for the support given them by the public and the help extended to them by the Government, squeeze their patrons and make an immoral use of the exclusive rights granted them by the authorities.

One grain of comfort left to the public is the fact that already an opposition line is in process of formation, not on so extensive a scale as the present grab-all Company and not worked on Tammany Hall lines but, by the combination of the regular travellers, aided by every man or woman who likes common fairness and justice, and assisted by local capitalists, will in a short time make the parent Company wish they had not killed the goose that laid the golden eggs.

A glance at the last balance sheet of the Star Ferry Co. is interesting, as showing how some business men can overreach themselves in grasping at plunder. The net earnings of the boats, viz., after paying all working expenses, were \$32,329.64 as against \$25,845.55 for the previous year and, after paying for all repairs, the splendid sum of \$43,455.13 stood to the credit of profit and loss. The balance was appropriated as follows:

Directors and Auditors Fees.....\$ 1,000.00
Dividend of 12%.....\$ 14,883.00
Write off boats.....\$ 5,231.00
" " Gondwills.....\$ 4,000.00
" " Turnstiles.....\$ 207.67
" " Ice House pier.....\$ 1,359.00
Transfer to Reserve Fund.....\$ 16,000.00
Carry forward.....\$ 774.40
\$ 43,455.13MESSRS. COTTAM & CO. for WARM
DRESSING GOWNS.

Could a small Company be in a more enviable position? Paying 12%, building up a solid reserve fund, and severely writing down all appliances and boats and yet, in face of these figures, putting up fares 50 per cent. We recommend the senior unofficial member to bring the whole matter before the Council at the very earliest opportunity, as we refuse to believe that the Government would be guilty of aiding and abetting by continuing to rent Ice House Street pier exclusively to the S. F. Co. for their proposed infamous extortion.

Even the present market quotation for the shares denote the sound state of the Company's finances, the shares on which \$10 has been paid up, stand at \$24 and those on which \$2½ has been called, are at \$9. What they will come to if the present ill-considered policy of greed is pursued remains to be seen.

In conclusion let us hope that all members of the community will do their utmost in every way possible to fight against this monopolistic grab, knowing well they will be assisted by Kowloon landowners, because with cheap facilities for travel more people will reside across the water and land values must appreciate.

UNITED SERVICES v. CIVILIANS.

This match, which resulted in an exciting win for the Civilians, was played on Christmas Day and Boxing Day on the Club Cricket Ground. The result of the match was no doubt due to the hard fielding of the Services and the hard hitting by Ward who gave no less than six chances. Hooper played well for his 62 as did also France Hayhurst and Wood. Cox again showed his capabilities at winning a match. Not content with getting one run for the win, he ran half way up the pitch and hit a ball from Reinold right out of the ground.

MESSRS. COTTAM & CO. for PATENT
LEATHER DRESS BOOTS AND
SHOES.

CHINA AND MANILA STEAMSHIP CO., LIMITED.

INCREASED CAPITAL.

An extraordinary general meeting of the China and Manila Steamship Company, Limited, was held at the Company's office, No. 14, Des Voeux Road, Central, at noon to-day for the purpose of considering resolutions respecting the capital of the Company. Mr. R. Sheehan presided, and there were also present Capt. Farrow, Messrs. A. J. Somerville, H. P. White, D. E. Brown, A. V. Apcar, A. G. Gordon, Benjamin, A. B. Hamilton, W. H. Potts, D. Gillies, N. S. Sieb, J. S. Van Buren, and Fung Wa Chun.

The Chairman said:—Gentlemen, the object of this meeting is fully explained in the printed notice of it, which you have all received. The reason for our sending out notices in preference to advertising was that hitherto when we have advertised many shareholders in Manila and on the Coast have complained that they never saw the advertisement, so to obviate this we have, in this instance, sent a notice to each shareholder. The reason for our raising this new capital is the necessity of paying off the balance of the cost of our two new boats *Zafra* and *Rubi*. A great part of the money required has already been temporarily borrowed in London, but the repayments will commence at the end of January and it is to meet these that we want more capital. We are not asking for the whole \$500,000, at once, in fact with one or two more years such as we have had lately we may never want the whole amount, and we have endeavored to make the instalments due at such times and at such intervals as will be most convenient to you. As long as the issue is assured we can no doubt get temporary loans from our bankers, which would enable us if advisable to anticipate any further sudden drop in exchange by remitting the whole loan at once, and you must remember that every fall in exchange increases the dollar cost of the boats. We cannot build new steamers without money, and if our earnings are all absorbed as capital we cannot go on paying dividends as well. The first of the new steamers, the *Zafra*, arrived on 25th November, and I am glad to say that the necessity for such boats has been fully demonstrated and our action in building them entirely justified by her performances. She at once became the favorite boat on the line, leaving her full of passengers with every berth engaged, and at all hands from shippers, passengers and agents she has received the highest praise. Her sister ship, the *Rubi*, left Singapore on the 24th inst. They are exact duplicates of each other and I have no doubt the *Rubi* will prove equally successful. All the arrangements both for cargo and passengers are in the opinion of experts exceedingly well adapted for the special requirements of the Manila run, and the result reflects the greatest credit on the builders, Messrs. D. J. Dunlop & Co., and on our Marine Superintendent, Mr. A. G. Gordon, who designed the boats in the first instance and has since given his whole time to superintending their construction at home. I am quite sure that with such vessels we can more than hold our own on the line against anything that can be brought against us and I feel that we can heartily congratulate ourselves on having acquired them. The past year on the whole has been a good one and business particularly of late has been very brisk with us; the passenger trade with the Philippines is increasing with the gradual pacification of the Islands and the attraction of capital thither, and although we are threatened with fresh opposition on the line we do not anticipate that it will gain much footing or seriously interfere with the earnings of our steamers. Before I proceed to put the resolutions stated in the notice to the meeting I take pleasure in informing you that Mr. J. S. Van Buren, of the Pacific Mail and O. & O. Companies has consented to join our Consulting Committee, a connection that you will doubtless agree with me should prove very valuable to this Company. (Applause.) I will now proceed to put the resolutions. I propose the first, which is as follows:—

"That the Capital of the Company be increased from One Million of Dollars (its present capital) to one million five hundred thousand dollars by the creation of ten thousand new shares of fifty dollars each."

Capt. Farrow:—I have much pleasure in seconding it.

The motion was put to the meeting and unanimously carried.

The Chairman then proposed the second resolution, which was as follows:—"That the new shares shall be offered in the first instance to the persons who, on the 15th January, 1902, shall be registered as shareholders, in the proportion of one new share for every two of the present shares and that such offer shall be made by notice specifying the number of new shares to which the shareholder is entitled and limiting a time within which the offer if not accepted will be deemed to be declined, and after the expiration of such time or on the receipt of an intimation from the shareholder to whom such notice is given that he declines to accept the shares offered, the General Managers may allot or otherwise dispose of all unaccepted shares to such persons on such terms and conditions and at such times as the General Managers shall think fit."

Mr. Brown seconded the motion and it was carried without dissent.

The Chairman proposed the third resolution, which was in the following terms:—"That each of the said new shares shall be paid for as follows:—the sum of Five dollars on account thereof shall be paid on the 28th February, 1902, at such place as the General Managers shall appoint, the sum of Ten dollars further on account thereof shall be paid on the 31st May, 1902, at such place as aforesaid, the sum of Ten dollars

further on account thereof shall be paid on the 31st December, 1902, at such place as aforesaid, and the balance shall be paid in such instalments (at intervals between the payment of each instalment of not less than three months, and subject to notice being given in accordance with Article 51 of these Articles) and at such times and places as the General Managers shall appoint. Provided that the General Managers may, if they shall think fit to do, extend the time beyond the dates above-mentioned for payment of any money for the time being unpaid on any or either of the said new shares."

Mr. Potts seconded, and it was agreed to. The Chairman:—That is all the business, gentlemen. I am much obliged to you for your attendance. The usual notice of the confirmatory meeting will be given.

CHRISTMAS PARTY AT THE ROYAL ENGINEERS MESS.

Of the many Christmas entertainments held this season, few can equal that given yesterday afternoon by the Non-commissioned officers of the Royal Engineers, in their boathouse in Wellington Barracks.

Tea was served at about 4 P.M. and all the R.E. married people were there in full force, with their children numbering something over 45. Their eyes glistened and expectancy showed in every move, and they were not disappointed. While tea was in progress, Father Christmas, personated by Staff-Sergeant Burnett, entered, accompanied by his imps, who were Messrs. Dooley, Ward and Burgess. Father Xmas was clothed in the traditional costume, so dear to us in our childhood days, and his three merry imps excited great laughter by their gambols. Mrs. Baker-Brown, assisted by Father Xmas and his imps then distributed the presents from a magnificent Christmas tree. And such presents! Each child was loaded down with every conceivable toy, packages of sweets etc., etc.; there must have been between \$100 and \$200 expended in presents for those 45 children, so you can imagine the result.

After the excitement had subsided partially, the event of the evening took place, called on the programme a "Shadow Pantomime." Across one end of the hall, a sheet was stretched, bordered by a very artistic frame of greens and flowers, giving the effect, when the lights were lowered, of a picture frame with a white canvas centre. On the other side, Sergt. Burnett manipulated an electric light and Messrs. Ward, Viggers, Burgess, Dooley and Simmers, attired in fantastic costumes, illustrated the Mother-Goose rhymes by passing between the light and the screen. Old Mother Hubbard, Hi-diddle-diddle, Little Jack Horner, etc. etc. This novel entertainment was a great success and was greeted with roars of laughter by the young folks and their elders as well.

Sergeant Simmers sang "The Village Blacksmith" in his usual masterly manner, to the accompaniment of Sapper Long on the piano. The song was illustrated by magic lantern slides which added greatly to the effect. The next event was a supposed ventriloquist, whose dummies that ought to have been, Old Joe and Sarah, were personated by Private Burgess and Sergt. Viggers, in a most laughable and dummy-like manner. Their actions and voices reminded one very forcibly of the figures used by ventriloquists and Mr. Ward as interlocutor fully kept up the illusion. "Cutting the Xmas Cake" and incidentally eating it, was quite a feature of the entertainment, and enjoyed by both young and old. Speaking of cake, calls to mind the fact that the tables were loaded with goodies of all kinds, a large amount of the success of the evening being due to the efforts of Mrs. Yeates, Staff Sergt. Yeates and Sergt. King who ably presided at the tables, and decorated the Xmas tree. One who has ever attempted to guide an amateur performance, realizes how hard the position of Stage Manager is, and all present applauded the result of Sergt. Dooley's management, as every thing passed off smoothly, without any delays. A vote of thanks was given to the officers, Mrs. Baker Brown and the Committee, Staff Sergt. Burnett, Staff Sergt. C. Yeates, Sergt. J. King and Corp. C. Chuter, for their able efforts which rendered this year's entertainment the most enjoyable one ever given.

Although Staff Sergt. Burnett very modestly requested us not give any undue prominence to his name, we must disobey him to this extent and say that although he was most ably seconded by the balance of the Committee, we saw signs of his being "The man behind the guns."

A VISIT TO HAPPY VALLEY.

TO THE EDITOR OF THE "HONGKONG TELEGRAPH." Sir:—On reading your issue of yesterday evening I was shocked to find a screed headed "A visit to Happy Valley" in your columns. At this season of the year it would be impossible to imagine an article more out of place, and the insane person who could amuse himself by (metaphorically) cuddling tombstones on Christmas Day may be pardoned wishing to see his snuffling drive in print, although his friends should be communicated with at once. He opens with a platitude already worn to shreds, and even putting it in Latin does not add to its respectability and, then meanders on to talk of Bacchus. What can he know of the rubicund God? The genial old 14 stoner presided over a custom that could not possibly brighten "pessimist's" alleged brain or assist his liver in carrying out its long forgotten functions. "Pessimist" says he spent a "soothing half hour in meditation," might I recommend this embryo "Gray" with his untaught "Elegy" to try a course of Watsons E. with an occasional Kutnow powder sandwiched in to equalize matters, then the public will be spared unseasonable Colney-Hatchlike piffel, and "pessimist's" friends from the expense of black ties and bands.

Yours truly,
"OPTIMIST."

WAS IT A POISON SNAKE?

Sometimes John Garrett would go from morning till night without bite or sup. This was three or four years ago. Every morning he got up with a disagreeable, gnawing pain in the stomach or abdomen—he couldn't quite locate it, but he felt it all the same. Still he kept on working. He meant to see a doctor but neglected it. So a year ran away. By then the complaint had got hold of him as a wild grape vine does of an old tree.

He was a man full of pain as an assumed cellar in of mould and crawling things. Often they kept hot flames on him for twelve hours before he got a bit of ease; and for three weeks straight away he was in racking pain. At intervals it made the sweat run off him in streams.

Then he went to bed, John told, and a doctor took him in hand, on a night ship when the navigation is growing ugly. "My doctor," Garrett says, "was the best of men, but he didn't seem to know what ailed me." Nor did the other medical man who followed him.

On this poor brother's heart sank within him, as King David did when he heard of the fate of Absalom. Having nothing to do except to think, he thought he would go to a London hospital and ask the famed men there what was the matter with him. They said his right kidney was diseased and the left one affected. They feared they couldn't help him but would take him in for a month if he cared to stay. He said he didn't care to stay, and went home to Dartford. Quite right. As a place to die in the hop country beats a hospital!

Then he told his home doctor what the London doctors had said. The home doctor agreed with the London doctor and told him he would soon join the silent majority—who are done with disease. The end of Garrett's story, written by him at his home, 13, Wellington Road, Dartford, Kent, January 7th, 1901, runs this way:—"I leapt out of bed and moved about all I could. I turned up at the works sometimes, but from January 1900 to Easter I did not earn enough to keep myself. More than once they sent me home."

"For three years I lingered along in this fashion when one Sunday I read in *London's Argosy* about a scrover who was handled like me and had been cured by Mother Seigel's Syrup; and without saying a word to anybody I got that medicine and began taking it."

"The first bottle pricked up my appetite and I actually felt hungry—a strange sensation for me, I slept better. The pain was not so sharp and the kidney secretion was clearer and of a better colour. The second bottle did me more good still, and after the third I felt like a king. I mean a healthy and happy king, if there is such a being."

"To-day I feel as well as I ever did. Saturday last I felt a bit out of sorts, from indigestion probably, and took a dose of Seigel's Syrup; and to-day I am right as rain. You may publish my tale."—John Garrett.

Did this man have Bright's disease? You have heard what the doctors said. Let us leave the point to them. Whether the snake that bit us was a poison snake or not is of no importance after we have got rid of the effects of the bite. Anyhow, whatever Garrett had, Mother Seigel's Syrup cured him; and the rest is nothing.

He has been employed at the *Daily Telegraph* paper mills for twenty-six years, but does not look his sixty years, his real age. Meeting him to-day you would not imagine he had ever been ill at all.—Advt.

LEGISLATIVE COUNCIL.

FURTHER GRANT OF EXCHANGE
COMPENSATION.

Regarding the further grant of exchange compensation to Civil Servants of Hongkong, discussed at yesterday's meeting of the Legislative Council, and which was reported briefly in our last evening's issue, the following is an extended account of the proceedings.

His Excellency the Governor—Before we proceed to the orders of the day, gentlemen, there is a matter that I have been instructed to bring before you by telegram from the Secretary of State for the Colonies. In October last the estimates of expenditure went home and, at that time we were aware that in the Straits Settlements, and the Federated Malay States an increase had been granted in the salaries and emoluments of the officials. However, there was no provision made for any increase here further than that recommended at the time by the Committee. A short time afterwards I received from the Secretary of State a copy of the despatch that had been addressed to the Straits Settlements in answer to the representations made by the Straits Settlements and Malay States. The Secretary of State had determined that in future all appointments, the emoluments of which were over \$1,200 a year shall be paid in sterling, as also the salaries of the European police, prison warders and other subordinate positions occupied by Europeans appointed from home, but as regards the present holders of these there were certain exceptional advantages at present such as the advantages held by old officials who received when they were on leave their half pay at 3/8 a dollar, and pension at the same rate.

The Colonial Secretary—4/10 leave and 3/8 on pension.

His Excellency the Governor—Yes. Well, the Secretary of State felt that he could hardly interfere with these advantages enjoyed by the present holders. So as far as the present holders of these were concerned, they received the option whether they would have their salaries in future paid in sterling at what the practical valuation of the sterling was, taking into consideration the possible advantage to pension pay, but that they would have the alternative of an increase not on the pay but that while actually serving in the Colony the compensation allowance for exchange should be given on the whole instead of the half salary. That increase was not to be calculated in either their leave or their pension but was to be a purely local increase while they continued to serve in the Colony, during the lifetime of the present holders. Well, when that came before me, in that despatch the Secretary of State informed me that he did not at present propose to increase the salaries of the officials in Hongkong until he was satisfied as to the financial soundness of Hongkong. When I received that despatch I saw at once the position in which this Colony would be placed if the officials in the Straits were to be better paid than the corresponding positions were worth in Hongkong. Both Colonies are recruited, and will be recruited in the future, by cadets who go through the same examinations, and in accordance with their positions on the list these cadets have the option of choosing where they go. Naturally, if we are the

WORST PAID COLONY IN THE EAST

we must expect to get simply the remainder. The most successful will naturally choose the best paid position. I wrote in answer to that and I pointed out this to the Secretary of State and also that at the present time we find it extremely difficult to get recruits for our police, our water police, and our warders, or any position for which we want Europeans in this Colony. I pointed out further the position in which this would place Hongkong. Furthermore, I went into the question of the financial position of the Colony, and I am speaking entirely to the unofficial members of this Council—I think it is unnecessary for me to say anything upon that matter. Anybody who has seen the list of public companies, shares, and other matters which are within the cognisance of anybody who chooses to take the trouble to inquire, must see that the operations in this Colony are very much larger than in Singapore; and I think as far as I, after nearly three years' experience, can gather, the financial position of this Colony is as sound as that of any in the British Empire. I pointed out that, and in answer to that I received this telegram from the Secretary of State on the 12th—"Referring to Despatch No. 443. I agree to proposed grant to Government officials additional exchange compensation, to begin the first of next month, on condition laid down in the case of the Straits, and subject to consent by the Legislative Council, who must be warned that more revenue may be required." He pointed out in his despatch that possibly very large votes would have to be taken as a consequence of a possible revivification of the plague, also possibly as the result of the visits from the two experts coming out, and that it was right to put this before you. But that being so, I place the matter before you. Every official member except myself is interested in this and it is, I need hardly say, a matter upon which they can neither speak nor vote. The following are the number of people who would be affected: There would be on the whole a total of 311 public officials affected by this—135 in the police, 26 in the gaoi, 17 in the Harbourmaster's Office, 27 under the Sanitary Board, 32 in the Public Works Department, 9 in the Colonial Secretary's Office, 10 in Queen's College, 24 in the Medical Department, etc.—and the amount that will be necessary to pay that increased exchange compensation during their service in the Colony would be ABOUT \$120,000 A YEAR, as far as I can see. There are the facts—the only facts—I have and am able to place before you. My own view is that it would be very

injurious to this Colony, if it were placed upon a basis of inferiority to the Straits Settlements and the Malay States, and further I may tell you that we have the greatest difficulty at the present moment with our present salaries in procuring men for the gaoi, the police, the water police and those small appointments for which Europeans are required. The Colonial Secretary has placed in my hands a letter from the senior unofficial member, Mr. Chater. He states that he is sorry at being unable to be present and adds—"I am very strongly of opinion that our Civil Service here should not be placed in a worse position than the service in Singapore, and I feel sure the Community would be of the same opinion." That is all I have to say upon the subject, and I place it before you.

Hon. Dr. Ho Kai—I understand, sir, the unofficial members are chiefly concerned in this matter and that the official members will neither discuss nor vote.

His Excellency the Governor—No, they will not.

Hon. Dr. Ho Kai—With your leave, and in the absence of the senior unofficial member, I will propose a resolution in order that my unofficial colleagues may have an opportunity of discussing this question to-day. The proposition I have to make is as follows:—"That the decision of the Rt. Hon. the Secretary of State for the Colonies regarding the further grant of exchange compensation to Civil servants of this Colony, subject to the approval of the Legislative Council, be approved by this Council." Have I your leave to make this proposition?

H.E. the Governor—Certainly.

Hon. Dr. Ho Kai continuing, said—I am quite of the same opinion as the senior unofficial member of the Council. I certainly think that in the third part of the world we should not treat our Civil servants in any worse manner than they are treated in Singapore, considering that this Colony of Hongkong is the chief port of call for all vessels coming East or going West; and we expect, as we have a right to expect, that all our Civil servants should discharge their duties in a manner corresponding to the importance of this Colony. And while we expect faithful and long service from our Civil servants, we certainly should pay them sufficiently for their faithful work. Singapore, I believe, although it is a larger place than Hongkong, is in prosperity, in trade, and in everything else, far behind Hongkong, and I believe the duties there of the Civil servants are not anything like so hard and important as we have for them here. So that in sanctioning this further grant in exchange compensation, we are doing nothing but justice to our Civil servants, and I for one as representing the Chinese, the most numerous taxpayers in the Colony, am quite of the opinion that their compensation should be increased. There is a further inducement, I think, in this way, that while they are on active service here they get the full compensation, and in their absence on leave they do not have any such advantage, so that there would be an inducement to work harder here and not go home on half-pay leave so frequently. We at all events, as colonists and inhabitants, get

GOOD SERVICE FOR THE RATE OF PAY.

I propose the resolution just to test the opinion of my unofficial colleagues and I am quite ready to discuss the question; I only put it out as a feeler, so that we may all see what opinion will be expressed and whether we are unanimous in sanctioning this decision of the Secretary of State.

Hon. Wei A Yuk—I beg to concur with all that Dr. Ho Kai has said.

Hon. T. H. Whitehead—My sympathies are entirely with the Civil servants in the matter of the exchange compensation—

H.E. the Governor—The motion is not yet seconded.

Hon. J. J. Bell Irving—I have much pleasure in seconding the proposition put before the Council. I heartily agree with what Dr. Ho Kai has said.

Hon. T. H. Whitehead—I would certainly have seconded the proposal and my sympathies are entirely with the resolution, and I quite realise the necessity of voting an enlarged compensation to Civil servants. But, sir, I would like if this motion could be postponed until next meeting of the Council to have an opportunity of considering it. This is the first, practically, I have heard of the motion. I was not aware that it was to be brought forward to-day, and if it would make no difference, I would like time to give it full consideration. If your Excellency would give the unofficial members an opportunity of perusing the despatches which have passed I have no doubt at all that an unanimous vote could be come to.

His Excellency the Governor—I quite understand the position of the hon. member. I may tell you that I gave this at once to the senior unofficial member of the Council with a view to his communicating with the other members. Unfortunately you were not here, being away at the time. Of course if it is the wish of the unofficial members that it should be postponed, I am in their hands. As to the despatches, they were confidential; I have said as much as I can regarding them and I do not think I can make them public, because they were confidential and mention some matters that perhaps it might be as well not to publish. I have no objection to show the hon. member the despatch if he wishes to see it. Perhaps that would be quite sufficient.

Hon. T. H. Whitehead—That will be quite sufficient.

Hon. J. Thurburn—I quite concur with the proposal made by the hon. member for the Chinese on every ground, but especially on the ground that it most undesirable that our officials should be paid less than those of any other Colony. As you, sir, mentioned in your speech, we would get the worst men. There is no

question about that, and I think that is one of the strongest reasons why we should grant this increase. For my part, I have much pleasure in supporting it.

His Excellency the Governor—I do not know whether I mentioned it, but the proposal is that this increase should take place from the first of next month, and that is one of the reasons I wished to bring the matter before the Council to-day before the first of next month. As a rule I disapprove of retrospection in such cases; and I think it is better that we have the thing arranged before the date arrives. If it is the wish of the unofficial members that it be postponed, I am entirely in their hands.

Hon. T. H. Whitehead—In deference to the unanimity on the part of my colleagues I have no desire to stand in the way. Only before giving my vote on a question involving a very considerable outlay of money, I should have liked to have had an opportunity of fully considering and discussing all the pros and cons. My sympathies are entirely with the resolution, but as an ordinary matter of business, I should have liked to have had an opportunity of going into the matter, and discussing it in all its different phases and on its merits. Still I have no desire to oppose the wishes of the majority.

The motion on being put to the Council, was carried unanimously.

Other business was as follows.—

BIRTHS AND DEATHS REGISTRATION.

The Attorney-General—The first item in the orders of the day is the second reading of a Bill entitled an Ordinance to amend the Births and Deaths Registration Ordinance, 1896. There are one or two matters in this Bill which I should like more fully to consider before it is brought on, and as there is no great urgency in the matter I would ask you, sir, to postpone the second reading to some future occasion after it has been more fully discussed.

This was agreed to.

REGISTRATION OF EMIGRANTS.

The Attorney-General—As regards the next item, the third reading of the Bill entitled an Ordinance to further amend the Chinese Emigration Consolidation Ordinance, 1889, there are one or two slight alterations which I think it would be desirable to make. I have read it over with the Harbour Master since my return and we have made some slight alterations. The Council went into Committee on the Bill, and it was considered clause by clause.

On resuming,

The Bill was read a third time, and passed on the motion of the Attorney-General, seconded by the Harbour Master.

The Council then adjourned sine die.

FINANCE COMMITTEE.

A meeting of the Finance Committee was held immediately afterwards, the Hon. Colonial Secretary presiding.

STEAM LAUNCHES.

The Governor recommended the Council to vote a sum of three hundred and thirty-nine dollars (\$339) in aid of the vote of \$15,200 for "Coals, repairs, &c., to steam-launches," Harbour Master's Department.

The Chairman—The Hon. Harbour Master, in applying for this vote, points out that the actual cost of repairs, &c., to the launches has exceeded the estimate by nearly \$7,000. In order to meet this excess the vote is necessary. The recommendation was approved.

SANITARY AND POLICE EXPENSE.

The Governor recommended the Council to vote a sum of one thousand two hundred and fifty-two dollars and fifty cents (\$1,252.50) to cover the cost of:—

13 pairs of wheels and axles complete	at \$22.50 per pair,	\$ 292.50
24 pairs of cushion tyres at \$40 per pair,		960.00
Total,		\$1,252.50

for the use of the Sanitary and Police Departments.

The Chairman—The Medical Officer of Health in his letter says that four ambulances for the removal of infectious cases to hospital have been built and are only waiting for wheels. I am sure all the members of committee will agree to this very desirable expenditure. The recommendation was approved.

PUBLIC WORKS.

The Governor recommended the Council to vote a sum of nineteen thousand and two hundred dollars (\$19,200) in aid of the following votes:—Public Works, annually recurrent expenditure.

Maintenance of buildings,	\$ 2,700.00
Maintenance of macadamised roads in Victoria,	10,000.00
Maintenance of Praya wall and piers,	500.00
Maintenance of waterworks, city and Hill district,	2,000.00
Drainage works, miscellaneous,	4,000.00
Total,	\$19,200.00

The Chairman—If any hon. member wishes any explanation of any of those items the Director of Public Works will be glad to furnish it.

Hon. T. H. Whitehead—It appears that there is a very large expenditure in excess of the estimated cost for the maintenance of macadamised roads. How is it that there has been this excess?

The Director of Public Works—It is very well known, as being a subject of general comment, that the roads have been in bad condition for some time past, and every effort has been made to bring them into a satisfactory state. It has been necessary to undertake very large repairs under that vote in order to bring them into anything like a satisfactory condition. Then again the increase of the vote has not, I think, kept pace with the increase in the surfaces of roads which it is necessary to maintain. The Praya reclamation, as every-

one knows, has added an immense area to the road surface of the Colony, and my opinion is that the vote has not been correspondingly increased, when the extra cost of labour and material is taken into account, with the increase of area. These are the only explanations I can give so far.

THE CIVIL SERVICE VOTE.

The Governor recommended the Council to vote a sum of thirty thousand seven hundred and twenty-eight dollars and twenty-seven cents (\$30,728.27) to meet the cost of increases of salaries of the subordinates in the Civil Service during the current year.

The recommendation was approved.

TIENTSIN DAY BY DAY.

(From Our Own Correspondent.)

TIENTSIN, December 14th.
MARRIAGE.

The marriage of Miss Lucy Detring, daughter of the Commissioner of Customs, to the Marquis Deuti di Pirajung, Lieutenant in the Italian Navy, took place to-day and proved quite a social event. The wedding took place in the Church of St. Louis, both the parties being Catholics, at 3 o'clock, and some time before that hour arrived the Church was fairly filled and many were standing in the side aisles. The British General and Staff were present in full uniform, and for once the British had all the gold lace and display to themselves, the other military officers present, French, German and Italian, being very plainly attired. As a rule we are cast in the shade, out here by the brilliance of Continental uniforms, but to-day the Sun himself might have taken a back seat. The bride, who was richly attired in ivory satin, veiled with lace veil and crowned with the time-honoured orange blossoms, looked very charming, as did her sister as chief bridesmaid in pink satin, and two tiny tots of—sisters and a little friend, who acted as train-bearers, all of whom carried beautiful bouquets of white chrysanthemums. The service was conducted in French, and was choral, a violin accompaniment to the anthem being given by Major Cleveland, of the 3rd Bombay Cavalry, who is engaged, so rumour has it, to Miss Dora Detring. After the service, which was short, the guests dispersed, but reassembled at the house of the Commissioner at 5 o'clock, when a reception was held until 7, and heartiest congratulations were showered on bride and bridegroom. The presents were numerous and very elegant, consisting mainly of silver necessities for the table, some handsome Peking silk carpets, a magnificent bundle of dark sables, and some very handsome tables. The weather, which has been most exceptionally dull, damp and windless, turned quite brilliant in the afternoon, and the bride had the necessary gleam of sunshine to ensure her happiness.

EDICTS.
have been rather prolific of late. December 8th. "We issue an Edict by command of Her Majesty the Empress Dowager that we have received recommendations from Prince Ching concerning those officials' actually in service, who have assisted in the peace negotiations and now should be rewarded. Lien Fang, Junior Vice-President Board of Foreign Affairs, is granted the privilege of wearing the one-eyed peacock's feather; Na Tung, Junior Vice-President Board of Revenue, to be Brevet President of Boards; Chang Yi, who is Reader to the Grand Secretariat, to be Sub-Chancellor of the Grand Secretariat; Chou Fu, Provincial Treasurer of Chihli, to be Brevet Governor of Provinces; Chun Kwei-lum, Provisional Treasurer Honan, to receive the one-eyed peacock's feather; Yiu Chang, Deputy Lieutenant General and now Minister to Germany, the button of first rank; Chang Pei-lun, son-in-law of the late Li, fourth or fifth rate Metropolitan Official."

Another Edict on the 8th, continues the honours list—"We are recommended by Her Majesty the Empress Dowager that the conditions are quiet and the date is fixed for returning, Prince Ching and Li Hung-chang have successfully restored peace, Jung Lu protected the Legations and his mind was set to put down the Boxers, and he can greatly assist us in maintaining the Empire. Wang Wen-shao has had his heart set on assisting the Government, regardless of all personal risk. Liu Kun-yi, Chang Chi-tung and Yuan Shi-kai each arranged for the protection and preservation of territory north and east, and their merits deserve great reward. Let Prince Ching draw double salary for first order Prince; Jung Lu and Wang Wen-shao be granted the privilege of wearing double-eyed peacock feathers and granted titles of Brevet Guardians of the Heir Apparent; Liu Kun-yi be granted the title of Brevet Guardian of the Heir Apparent; and Yuan Shi-kai Brevet Junior Guardian of the Heir Apparent; let sacrifices be offered for Li Hung-chang, and let his son Li be Probationary Sub-Director of the Court, third or fourth rank."

A still later Edict, dated 11th, confers the title of Brevet Junior Guardian of the Heir Apparent on Sheng Taoai and Sir Robert Hart. It also orders Chang Yi to be Expectant Vice-President of Boards; Liu Leang-chun to be advanced one grade and his name recorded in the Grand Council.

It is reported that Yuan Shi-kai, when he goes to meet the Court, will be created Assistant Plenipotentiary.

THE COURT.

December 15th.
The Court is officially announced to have started from Kaifengfu on the 13th inst. and crossed the Yellow River the same day, having the midday meal on board the ferry. The various stages of the journey will be as follows, but the precise time of stoppage at each place is not certain, and, though only some sixteen days are to be spent travelling, it may be any.

GIRAULT: BRILLIANT VARIETY of BEST CONFECTIONERY from Paris, London, Boston, New York, &c.

time from three weeks to three months ere the Court really arrives.

1st stage. From Kaifeng to Luichow (ferry, and Hsien).

2nd " Fengchichien—Tachung, Jen-chien district.

3rd " Tachung—Wangtung, Chi District in Weihsiu.

4th " Changtun—Chichien.

5th " Kaotung—Yiku-yi, Chuntsefu.

6th " Tangyia-hsien—Weichiang, Wang yanghsien.

7th " Ershih-li-fu—Fung-to-chien. (Borders of Chihli).

8th " Tssu-cho—Lulichien, Changchun, Kanchang.

9th " Huangliang-chun—Lulokuan, Yung-tien.

10th " Chaho, Shitai District.

11th " Lunyangsun, Neiching.

12th " Changtun, Po Hsiang.

13th " Kirchun—Chahotien, Chaicho.

14th " Chaitienchang—Tachung.

15th " Yihotien—Pucha, Chengtingfu.

16th " By rail to Tchingho.

17th " By rail to Paoching.

18th " Chuachou to Peking.

As a stoppage of at least one night takes place after each stage, the exact date of arrival is uncertain. The Emperor will leave the train at Machinpu, where he will be met by the Foreign Ministers with whom he will shake hands. The Chinese high officials will meet him kneeling at the gate of the forbidden city. From Machinpu the Emperor will of course take a native conveyance, either on horse or on a palanquin, to be expected to use and recognise the hated extension which pierces the city walls and runs along the inner city wall to the Hatanan. The belief is quite prevalent in Peking that the Emperor and Court will get no further than Paoching, but wait there until the Manchurian question is settled. This is officially denied, however, on the ground that the Court would be no nearer from foreign troops at Paoching than Peking.

Russia is reported to have given an arbitrary limit to the Chinese Ministers for the conclusion of the Manchurian affair, intimating that if they delay steps will be taken in which no chance of negotiation will be afforded them.

December 17th.

THE WEATHER.

The weather has turned sharp and cold again, and Sunday brought us our second fall of snow. Not a very heavy one, but it still lies everywhere, not having thawed.

THE RAIL.

There are some 30 steamers at the Bar now and it is hardly likely that they will all discharge their cargoes. It is very unusual for the port to be open within a week of Christmas. The Customs staff has been established at Chingwanan and great is the talk of bringing the last cargo in that way. The price will, I should say, be prohibitive.

THE RAILWAY.

Within the past few days a quantity of rolling stock has been landed there for the Lu-Han railway, imported from Belgium, including some 100 freight and passenger cars, and ten engines of large size.

JUNG-LU.

Junglu is busily constructing a new house in Peking, wherein he hopes to spend many prosperous days no doubt. In the strength of the recent honours conferred on him we may expect double deeds from the ex-Boxer leader. The Americans had the credit of being the last of the foreign powers to vacate Chinese houses in Peking, but it appears the Japanese are really the last retainers, as some of them still occupy Prince Tuan's house, which they claim they have a right to hold on to on account of that worthy's share in the trouble. This is from Chinese sources, and may not be correct.

THE S. P. G.

Bishop Scott and Sister Jessie of the S.P.G. arrived here on Sunday and are right welcome. Sister Jessie it may be remembered had the honour of receiving her Red Cross for valuable services in Peking, direct from the King.

LATE NEWS.

[FROM INDIAN PAPERS.]

THE WAR IN SOUTH AFRICA.

LONDON, December 28th.

In order to prevent difficulties such as those experienced in Natal at the beginning of the campaign, it has been decided to make a complete military survey of all the principal colonies.

The Daily News states that the Government is engaged in another formal attempt to negotiate with the Boers through their leaders in South Africa.

A meeting of the general committee of the National Liberal Federation at Derby showed that neither uncompromising Pro-Boers, nor War Imperialists have a commanding influence.

THE SCANDAL AT THE DUTCH COURT.

CALCUTTA, December 28th.

An Englishman special cablegram from London says that a view is being taken with reference to the real facts regarding the scandal at the Court of Queen Wilhelmina; the story of the duel is in well informed circles accepted as doubtful. It seems certain however that there has lately been considerable domestic unhappiness which is generally attributed to the Prince's inordinate love of hunting and his antipathy to the Dutch people, a feeling that is reciprocated by them, the Prince being much disliked, more particularly on account of his being an ex-Frussian officer. It is also stated that the Queen refused to pay the Prince's gaming debts. It is now reported, however, that a reconciliation has been effected between Queen Wilhelmina and the Prince, who yesterday drove out together.

VOLUNTEER FORCE FOR SOUTH AFRICA.

CALCUTTA, December 28th.

An Englishman special, dated London December 28th says: With a view to providing reinforcements in South Africa the Government has decided to make a further enlistment of the services of Volunteers. A movement is on foot to raise a new force from the Volunteers who returned from the front a year ago; the force when raised will consist of about 5,000 men. It is considered that this reinforcement will not free a large number of efficient veterans who are now employed in guarding our communications.

FAMINE RELIEF.

CALCUTTA, December 28th.

A substantial decrease of 9,115 is shown in the numbers in receipt of relief last week, compared with the figures for British provinces in the previous week, the whole of the decrease, with the exception of 17 in Madras, being from Bombay from native states. On the other hand increases are reported to the extent of 3,673, making a grand total still receiving relief in all India of 91,977 or 5,442 less than for the preceding week.

CALCUTTA, December 28th.

Miss Hobhouse, whom the authorities at Capetown declined to allow to land, and was compelled to remain on the hospital ship, is suing Lord Kitchener and Lord Milner for false imprisonment and assault.

THE DUTCH COURT SCANDAL.

CALCUTTA, December 28th.

The publication in the English press of Reuter's statements regarding the serious difference between Queen Wilhelmina and her husband has created great indignation in Holland. Categorical official denials have been made of all Reuter's statements. We are asked to believe there was no quarrel, insult or duel. The Dutch Court is furious and Pro-Boerism is rampant at The Hague.

THE N.W. FRONTIER.

ALLAHABAD, December 28th.

Advices from the Mahsud country state that General Denning, with two columns, advanced northwards from Jandala on the 4th and destroyed four towers, and several villages and granaries, meeting with slight opposition. Our casualties were one sowar, 1st Punjab Cavalry, and one sepoy, 1st Punjab Infantry, wounded. The 32nd Pioneers and 38th Dogras have moved from Dera Ismail Khan to Jandala.

CALCUTTA, December 27th.

On the 5th December a column under General Denning marched to Dwa Shinkai, four miles above Ahmadnagar, and destroyed seven villages, and seven towers. He met with opposition, a number of Mahsuds following up the column in the evening. The Mahsud casualties were heavy. Of General Denning's force ten men were killed, and 15 wounded, the latter including Capt. McVean, 45th Sikhs.

BRITISH IMPORTS.

LONDON, December 28th.

British imports for November show a decrease of £29,237,777 due to miscellaneous causes, and the exports a decrease of £1,882,213 owing to a decrease in the quantity and price of coal.

THE TRIPOLI RIOTS.

Six Arabs and two Turkish soldiers were killed, and many wounded in the conflict between the troops and population near Tripoli, where a state of siege has been proclaimed.

NEW SOUTH WALES INDUSTRIAL ARBITRATION BILL.

LONDON, December 28th.

The Sydney Parliament has passed the Industrial Arbitration Bill, compelling the reference of labour disputes to special courts, and punishing with fine and imprisonment strikes and lockouts before or pending such reference.

THE MAHSUD EXPEDITION.

CALCUTTA, December 28th.

Particulars have now been received of Colonel Denning's operations in Waziristan during the last few days. On the 4th instant a force marched over 20 miles from Jandala to Dwa Shinkai, which is within 12 miles of Kanigaram. They camped at Dwa Shinkai for the night. The advance had been entirely unexpected but during the night the news spread rapidly that the Mahsuds began to collect on the morning of the 5th instant. The troops destroyed some villages and towers two miles above the camp, and were followed on their return by the Mahsuds who came to close quarters with the rear guard. On the 6th the troops halted at Guri Khel, where there was some sniping during the day. On the 7th the troops retired slowly to Margband destroying villages on the way; the Mahsuds following up as far as Kotchingi, charging once to close quarters, and being repulsed with much loss. On the 8th part of the force returned direct to Jandala, the other part moving up Shaitak as far as Zerwan and destroying villages without opposition. The Mahsuds, having disappeared the whole column had returned to Jandala by the afternoon.

The total casualties were one British officer wounded, Captain McVean, of the 45th Sikhs, 13 native rank and file killed and 17 wounded. Several leading Mahsuds are known to be among those killed. Fifteen villages, six towers, much grain and fodder were destroyed. It is understood that the mobilization of a reserve brigade has not been officially sanctioned. So far as official information is obtainable in Calcutta the movement of the troops concerned is in abeyance.

THE GAZETTE.

LONDON, December 28th.

THE LONDON VOLUNTEERING SCHEME.

CALCUTTA, December 28th.

An Englishman special telegram from London, dated December 28th, says:—Since my last wire developments have arisen, which are causing a scheme for raising 5,000 Volunteers in London for service at the front to be held in abeyance. The chief difficulty which is being experienced by the War Office authorities relates to the question of pay, recruits hanging back at the present rate offered. Unless this obstacle can be overcome, there is reason to fear that the project may collapse.

FATAL SHIKAR ACCIDENT.

OWING to the insufficiency of accommodation in the present building and the increasing demand for admission, it has been found necessary to extend the wings of the main building and to enlarge the Chinese department by an additional storey with two wings. The estimated cost will amount to over \$15,000. To cover these expenses we appeal to the liberality of all friends of Education. The establishment has been in existence for the last 25 years and is open to all classes. Much of the clerical work of the city is carried on by its pupils. As this is the first time we have applied for assistance we expect a generous response.
